P R E F A C E.

THE Utility of an accurate Description of the Roads, is so obvious to every Person who travels, as not to require any Demonstration; and, as the Preference which the following Work claims before any other of the Kind hitherto published, will be evident on the least Comparison, we shall decline enlarging on that Head, and only mention what is necessary by Way of Explanation.

By the Plan adopted in executing this Work, it contains all the new Roads down to the present Time, with the Alterations and Improvements made in the old; and exhibits at first View, the Distance of each City, Town, or remarkable Village, from London, with a particular Account of the Roads leading to it, measured from the different Standards in London, according to the Mile-Stones on each Road, and arranged in the following Order, viz.

1. The Kent Roads, measured from *London Bridge*.
2. The Croydon, Ryegate, and Epfom Roads, from *Westminster Bridge*.
3. The Kingston Road, from the *Stones End in the Borough*.
4. The Brentford Road, from *Hyde-Park Corner*.
5. The Uxbridge and Edgeware Roads, from *Tyburn Turnpike*.
6. The Barnet Road, from *Hicks's-Hall*.
7. The Ware Road, from *Shoreditch Church*.
8. The Effex Road, from *Whitechapel Church*.

The

The Measurements, which are taken in Miles, Halves, and Quarters of Miles, are arranged in two Columns, the first giving the Distance from one City, Town, or Village, to the next; the second, the Number of Miles from the Commencement of the Road. And, (for the further Amusement of the Traveller) at the End of each Road is given a brief Account of whatever is worthy of Observation; such as Parks, Seats, Castles, Ruins, &c.

To find the Road from London to any City, Town, or remarkable Village, in England or Wales, look for the Name of the Place in the *Index to the Roads from London*, and the Figure opposite to it refers to the Page in which is that Part of the Road containing the Place looked for; thus, from London to Durham, the Index directs you to Page 133, where you find Durham with its Distance from London, &c. though the Description of the Road in which it is situated (being that from London to Edinburgh) begins in Page 131, and ends in Page 134.

In describing the lesser Roads branching out from the greater, the last remarkable Place on the great Road, or the Spot where the lesser turns off, is first given, with a Reference to the Page in which you will find the Road so far as to that Place; and afterwards the Branch is continued: as for instance, to find the Road from London to Chertsey, in Surry, the Index refers you to Page 40, where you find it in the following Form, *viz.*

To Hounslow, p. 24		
Feltham,	Midd.	$3\frac{1}{2}$
Littleton,		$3\frac{3}{4}$
Chertsey,	Surry	3
		$9\frac{3}{4}$
		$13\frac{3}{4}$
		17
		20

By which it appears you are referred to Page 24 for this Road, as far as Hounslow, (the last remarkable Place on the great Road) from thence the remainder of the Road to Chertsey is given after the above Form in Page 40, as directed

directed by the Index. In like Manner for the Roads from London to Askrig, the Index directs to Page 140, from whence you are referred to Page 133 for one Road as far as Boroughbridge, and (in Page 141) to Page 125 for another as far as Settle, the Continuation of each Road being given in Pages 140 and 141. These References are made use of in order to prevent the numberless Repetitions which otherwise would unavoidably occur in a Work of this Kind.

In looking for the Cross Roads, recourse must likewise be had to *their* Index, which is so plain as to require no farther Explanation than what is there mentioned.

Having thus, to the best of our Abilities, supplied the Traveller with a full and accurate Description of a much greater Collection of Roads than was ever before attempted; yet, as the different Routs which Travellers may have Occasion to take are almost infinite, and consequently not comprisable in a Volume of this Size, we have, in order to complete our Plan, compiled, and published separately, a *Second Part* to this Work, entitled, A TRAVELLING DICTIONARY; or, *Alphabetical Tables of the Distances of all the Cities; Borough, Market, and Sea-Port Towns, in Great-Britain, from each other, &c.* By these Tables, the Traveller will find the Compass he must make to visit any Place or Places which he may be desirous of taking in the Course of his Journey; and will likewise be enabled, at setting out, to form an Estimate of his Time and Expence, by ascertaining the Number of Miles he must travel, with the greatest Exactness, should the Tour he proposes to make be ever so much about, or irregular. Those who have experienced how varying, and often contradictory, have been the best Accounts they could procure of the Distances of Places on their Journey, and how vexatious in their Consequences, will readily acknowledge the Utility of a Work of this Kind.

The

The *Travelling Dictionary* being printed on the same Size as the *Description of the Roads*, the two bound together make a complete Travelling Companion.

The Roads of Scotland are also printed of the same Size, and may be had bound up with the above, or separate, Price 6d.

A Correct List of the Fairs of England and Wales, being printed of the same Size, may be had bound up with the Book of Roads, or separate, Price 6d.

The Publisher returns his most grateful Acknowledgments to those Gentlemen who communicated the Corrections and Additions with which this Edition is improved; and, as a Work of this Kind must be ever subject to Alterations, from the New Roads continually making, any Improvements or Corrections for another Edition, that are transmitted to T. Carnan, at Number 65, in St. Paul's Church-Yard, will be du'y attended to, and carefully inserted.

Market and Sea-Port Towns.

N. B. *The Mile-stones on the Portsmouth Road have been lately altered as far as Sheet Bridge, and the Measure taken from the Stone's End, instead of the Standard in Cornhill; by which Means the 29th Mile-stone stands within the Town of Guilford; and the other Roads branching therefrom are consequently shorter than heretofore reckoned when the Measurement was taken from Cornhill, according to which the Mile-stones are standing in many Places.*
